

CALL FOR PAPER

2nd Conference on Blockchain Research & Applications for Innovative Networks and Services

BRAINS 2020

September 28 – 30, 2020

Paris, France

Blockchain and Distributed Ledger Technologies (DLT) have the potential to disrupt any domain involving coordination among autonomous resources. This include finance and payments (e.g., Facebook Libra), but also networks (e.g., power grids or telecom networks), computing (e.g., brokering of edge resources), IoT (e.g., supply chain or industry 4.0) or service platforms (e.g., identity management).

BRAINS conference is dedicated to these new advances that could make the world of networks and services more secure, while enabling new distributed business models.

Topics of interest

Fundamentals of Blockchain and DLT :

- ◆ Theoretical contributions on Blockchain and DLT
- ◆ Distributed consensus and fault tolerance solutions, including domain-specific consensus (e.g., for networking)
- ◆ Tradeoffs between decentralization, scalability, performance and security
- ◆ Protocols and algorithms

Decentralized Apps, Smart contracts and chain code :

- ◆ Development languages and tooling
- ◆ Security, Privacy, Attacks, Forensics
- ◆ Transaction Monitoring and Analysis
- ◆ Token Economy
- ◆ Distributed Trust
- ◆ Collaboration between on-chain and off-chain code
- ◆ Oracle

Application and service cases of DLT and Smart-Contracts:

- ◆ Finance and payments
- ◆ IoT and cyber physical systems
- ◆ Smart grids and Industry 4.0
- ◆ Networking, Edge and Cloud Technologies
- ◆ 5G Technologies, Telecom Process and Operation
- ◆ Supply chain management
- ◆ Connected and autonomous vehicles
- ◆ Services or Resources Marketplaces
- ◆ Blockchain as a service
- ◆ Blockchain-defined networking

Submission Guidelines

Submitted papers must represent original material that is not currently under review in any other conference or journal and has not been previously published. All submissions should be written in English with maximum of eight (8) printed pages (in Two-Column IEEE Conference Format), including text, figures and references. Papers should be submitted through EDAS at <https://edas.info/N26780>

All accepted and presented papers will be published on IEEE digital library. Best papers will be considered for fast-track publication in the Annals of Telecommunications (Springer, ISI-indexed)

Important Dates

- ◆ **Paper Submission: March 31, 2020 (Extended)**
- ◆ **Paper Acceptance Notification: May 15, 2020**
- ◆ **Final Papers Due: June 07, 2020**

Organizing Committee

General Chair:

Emmanuel Bertin (Orange Labs, France)

TPC Co-Chairs

Abdelkader Lahmadi (ENSEM, France)

Ruidong Li (NICT, Japan)

Cyril Cassagnes (University of Luxembourg, Luxembourg)

Publicity Co-Chairs

Carol Fung (Virginia Commonwealth University, USA)

Maria Potop-Butucaru (Sorbonne University, France)

Prosper Chemouil (Orange Labs (retired), France)

François Le Fevre (CEA-LIST, France)

Andreas Veneris (University of Toronto, Canada)

Zhi Zhou (Sun Yat-Sen University, China)

Industry and Tutorial Chair

Noel Crespi (Institut Mines Telecom, France)

Keynote Chair

Andreas Veneris (University of Toronto, Canada)

VC & Startup chair

Nicolas Cantus (Chain Accelerator, France)

Demo Chairs

Tesnim Abdellatif (EDF R&D, France)

Cyril Cassagnes (University of Luxembourg, Luxembourg)

International Steering Committee Chair:

Raouf Boutaba (Waterloo University, Canada)

Prosper Chemouil (IEEE, USA)

Guy Pujolle (UPMC, France)

Noura Limam (University of Waterloo, Canada)

Olivier Festor (INRIA Nancy – Grand Est, France)

Wolfgang Kellerer (Technische Universität München, Germany)
